

Microsoft Excel

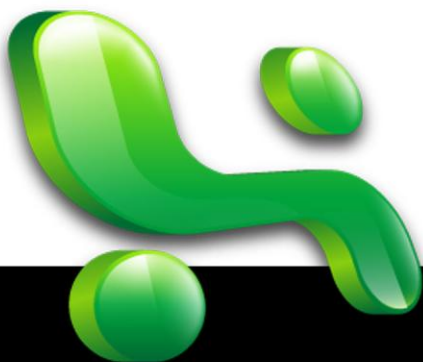

Fórmulas avançadas

The screenshot shows an Excel spreadsheet with a formula error. The formula bar at the top displays `=SE(C4;B4/C4;0)`. In cell D4, the formula `=SE(C4;B4` is entered, which is incomplete and causes an error. A red arrow points to the error. The spreadsheet data is as follows:

	A	B	C	D	E
1					
2					
3					
4					
5			1	5	0,2
6			2	6	0,333333
7			3		=SE(C4;B4
8			4	8	0,5
9			5	9	0,555556
10			6		#DIV/0!
11			8	12	0,666667
12			9	13	0,692308
13			10	14	0,714286
